

The APart TLG-VOL100 is a 100 Volt volume control that can handle up to 100 watt of power.

It is very durable due to the step by step attenuation in 11 steps + zero position. The volume control is equipped with a 24V priority relais. This way a microphone call will always come through at maximum volume, no matter what position the volume control is in.

The TLG-VOL100 is build on a 3 module bTicino chassis of the Living series.

The unit is supplied with the 3 module frame, without the cover plate.

TECHNICAL SPECIFICATIONS

| | |
|------------------------|---|
| Type | bTicino Living |
| Handling power | 100 watt |
| Voltage | 100 Volt |
| 24V priority | Yes |
| Attenuation steps | 11 + "0" |
| Build-in box | T-3MODINW (for brick walls) T-3MODINP (for hollow walls) |
| Dimensions (H x W x D) | 70 x 115 x 70 mm |
| Weight | 0.29 Kg |
| colour | Dark grey |
